

Muhammad Bin Djafar Almasyhur

wa.me/6281231372105 | muhammadmasyhur2@gmail.com | linkedin.com/in/muhammad-bin-djafar-almasyhur/

Cumlaude graduate with a Bachelor's Degree in Computer Science and a Full Stack Developer specializing in scalable web applications and seamless integration between frontend and backend systems. Proven track record in translating user requirements into overall architecture, automating workflows, and delivering high-quality solutions. Highly skilled in developing APIs using Golang, Python, and .NET, alongside building interactive and dynamic frontend architectures. Possesses strong analytical and problem-solving skills, with a passion for troubleshooting web applications and ensuring performance under tight time constraints.

EXPERIENCES

MAYFEYR Worldwide Pte Ltd.

Full-Stack Developer

Aug 2025 – Mar 2026

- Developed and maintained scalable web applications, ensuring seamless integration between frontend dashboards and backend e-commerce endpoints using Python, JavaScript, and GraphQL.
- Understood, created, and debugged database-related queries to build competitor price comparison algorithms and optimize dynamic pricing strategies.
- Troubleshooted web applications with fast and accurate resolutions, developing an internal tool that cut Shopify go-live wait times by >50%.
- Engineered end-to-end automated systems, translating business requirements into a pipeline that reduced manual operational time by ~80%.

PT SUITMEDIA KREASI INDONESIA

Software Engineer Intern

Sept 2024 – Dec 2024

- Monitored the performance of web applications and optimized backend systems within a 10+ developer agile environment.
- Developed secure, enterprise-grade APIs using .NET and C#, integrating JWT and WebSockets for real-time data communication.
- Worked closely with cross-functional teams, maintaining structured CI/CD and Git version control workflows to deliver high-quality solutions.

PT ADMA DIGITAL SOLUSI

Full-Stack Web Developer Intern

Feb 2024 – Jun 2024

- Architected and built a comprehensive POS platform from scratch using Laravel, JavaScript, and MySQL based on specific client requirements.
- Demonstrated ability to work under pressure and time constraints by delivering 37 complex task modules within a strict 14-week sprint cycle.
- Worked closely with cross-functional teams, including UI/UX designers and technical writers, to deploy end-to-end features seamlessly.

EDUCATIONS

BRAWIJAYA UNIVERSITY | MALANG, INDONESIA

Aug 2021 – Jun 2025

Bachelor's in Computer Science

GPA: 3.80 / 4.00

Relevant coursework:

- **Thesis & Applied Research:** Fine-tuned generative AI (Diffusion Models) for Batik pattern generation, applying advanced computer vision techniques.
- **Backend & Systems Coursework:** Service-Based Architecture, Enterprise Frameworks, Server Administration, Software Engineering, Algorithms and Data Structures.
- **AI & Core Computing Coursework:** Artificial Neural Networks, Machine Learning, Big Data Analytics, Algorithms & Data Structures.

ORGANIZATIONS

HIMPUNAN MAHASISWA DEPARTEMEN TEKNIK INFORMATIKA UNIVERSITY OF BRAWIJAYA

Vice Chairman - Himpunan Mahasiswa Departemen Teknik Informatika

Jan 2024 – Dec 2024

- Initiated a major structural reform by merging overlapping divisions and streamlining operations to improve organizational agility.
- Designed 7 professional-focused work programs to align student development with industry needs.

- Oversaw strategic planning and execution across IT, business, advocacy, and student welfare divisions.

PROJECTS

Educational Information System Madrasah Al-Fath, Malang

Mar 2026 – Present

Full-Stack Developer

- Translated user requirements into the overall architecture to develop a comprehensive educational management system for educators and parents.
- Developed scalable RESTful **APIs** using **Golang** (Gin) to power core functional backend modules, including scheduling and grade reporting.
- Developed frontend website architecture using TypeScript and Next.js (**ReactJS** ecosystem), designing interactive, responsive, and dynamic web pages for a seamless user experience.
- Integrated seamless data access and security by designing a robust Role-Based Access Control (RBAC) authentication mechanism.

Generative AI Project – Batik Diffusion Model Fine-Tuning

Apr 2025 – Aug 2025

AI Engineer

- Engineered a training pipeline and fine-tuned generative models (Diffusion Models) applying advanced computer vision techniques.
- Evaluated model performance using quantitative metrics and expert validation to ensure accurate resolutions and quality.

EasyRent

Nov 2023 – Nov 2023

Full-Stack Developer

- Created test code and conducted rigorous White-box and Black-box testing to validate the application against system reliability standards.
- Developed core backend modules and integrated the Midtrans API to ensure secure payments.
- Designed MySQL database architecture and authored comprehensive engineering documentation to translate system standards.

SKILL & OTHER

Technical Skills

- **Programming Languages & Frameworks:** Golang (Gin), JavaScript, ReactJS ecosystem (Next.js), TypeScript, Python (FastAPI), .NET (C#), Laravel (PHP).
- **API & Web Architecture:** REST **APIs**, GraphQL, WebSockets, JWT Authentication, Microservices.
- **AI & Automation:** PyTorch, Diffusion Models (Stable Diffusion, DreamBooth), LLaVA, Computer Vision, n8n (Workflow Automation), Appsmith
- **Databases:** PostgreSQL, MySQL, MSSQL, MongoDB, Oracle, MSSQL Server

Soft Skills

- Cross-Functional Leadership
- Analytical Problem-Solving
- Agile Teamwork
- Adaptive
- Critical Thinking

Certifications:

- Oracle Academy - Database Design
- Oracle Academy - Database Programming with SQL
